

COMPLIANCE DECLARATION

1) We hereby state that the following articles we deliver to you:

Cod. Flo	Description
007402105	Cop. Domed 25/30cl (10x100) B.co
007402108	Cop. Domed 34/45cl (10x100) B.co

They are considered objects intended to come into contact with food.

They comply with EC community legislation:

- Regulation (EC) 1935/2004 and subsequent updates and amendments regarding materials and objects intended to come into contact with food products
- Regulation (EU) 10/2011 and subsequent updates and amendments regarding plastic materials and objects intended to come into contact with food products
- Regulation 2023/2006/EC and subsequent updates and amendments on good manufacturing practices for materials and objects intended to come into contact with food products

And to the following Italian legislation:

- Ministerial Decree 03/21/1973 and subsequent updates and modifications Hygiene regulations for packaging, containers, utensils intended to come into contact with food substances or substances for personal use
- Presidential Decree 777/82 and subsequent updates and amendments Implementation of Directive (EEC) n.76/893 relating to materials and objects intended to come into contact with food products
- Legislative Decree of 10 February 2017, n.29 and subsequent updates and amendments Sanctions for violations of the provisions of Regulations (EC) n.1935/2004, n.1895/2005, n.2023/2006, n.282/2008, n.450/2009 and n.10/2011 regarding materials and objects intended to come into contact with food products and foodstuffs

2) Above mentioned products are made with:

- Polystyrene
- White PS masterbatch

The above materials might contain substances subject to restrictions according to above regulations:

n° CAS	Substances	LMS Reg. (EU) 10/2011
106-99-0	1.3 Butadiene	Max 1 mg/kg

FLO S.p.A.

100-42-5	Stirene	-
2082-79-3	Octadecyl-propionate	Max 6 mg/kg
000557-5-1	Zinco Stearato (24550)	Max 5 mg/kg (as Zn)
The following substances are used "dual use" as provided for by Reg. EC 1333/2008 and EC Reg. 1334/2008:		
//	//	//

Products actually used in contact with the following types of foodstuffs:

Dry, watery, acid, alcoholic, fatty and dairy

The product mentioned above can be used in contact with food in the following conditions of time and temperatures:

- 2 hours 70 °C
- Max 100 °C x 15 minutes

Do not use in traditional or microwave oven. Not suitable for cooking.

Specific conditions of use: single use

The global migration limit, the specific migration limit of metals, primary aromatic amines and dyes, together with the other specific restrictions to which the monomers or additives present in the material may be subjected, are respected in the conditions of use mentioned above. The statement is supported by analytical tests or on the basis of theoretical calculations on the migration of substances conducted in accordance with the aforementioned legislation where applicable. The calculations were carried out assuming that 1 kg of food comes into contact with 6 dm² of product.

3) This statement is issued according to the legislations cited above and is intended to:

E.WEBER & CIE AG ZÜRICH

4) This statement is valid from the date below and will be replaced in the case substantial changes in the production of material should take place, able to change certain compliance requirements or when the legislative references cited in this statement will be modified and updated in order to request a new check for compliance.

The declaration has anyhow a maximum duration of 24 months.
