For information regarding migration tests and the declaration of compliance, please refer to the Foodapproval. This product is manufactured in accordance with BRC regulations.

## QUANTITITES

Each primary packaging contains 100 pieces

Each master carton contains 10 units of primary packaging.

## PACKAGING INFORMATION

### Inner box

| Material                     | Carton          |
|------------------------------|-----------------|
| Dimensions in mm (L x W x H) | 100 x 304 x 100 |
| Packaging (Kg)               | 0,105           |
| Gross weight (Kg)            | 1,370           |
| Nett weight (Kg)             | 1,265           |
| % recycled material          | 0%              |

### Outer box

| Material                     | Carton          |
|------------------------------|-----------------|
| Dimensions in mm (L x W x H) | 521 x 319 x 212 |
| Packaging (Kg)               | 0,312           |
| Gross weight (Kg)            | 14,012          |
| Nett weight (Kg)             | 12,650          |
| % recycled material          | 69%             |

## MATERIALS

The pipingbag is made from LDPE (Low density polyethelene)

## DISPOSAL

Low-Density Polyethylen (LDPE) is fully recyclable. Please ensure that it is disposed of in the appropriate recycling bin for plastic waste.
