

## Technical data sheet

429 772 Handstretchfolie 500mm 20my, 300m/Rolle

### 1. Product Description

Stretch film is a linear low-density polyethylene (LLDPE) based film produced by cast extrusion method, used for pallet wrapping and load stabilization

### 2. Product Specifications

Property	Unit	Typical Value	Test Method
Thickness	micron	17 / 20 / 23	ASTM D374
Width	mm	500	Internal
Length	m	1500	Internal
Density	g/cm <sup>3</sup>	0.92	ASTM D1505
Elongation at Break	%	150	ASTM D882

### 3. Application

- Pallet wrapping
- Manual and machine use
- Logistics and storage protection

### 4. Storage Conditions

Store in a dry place, away from direct sunlight, between 15–25°C.

### 5. Shelf Life

12 months under proper storage conditions.

### 6. Packaging

Rolls are packed on pallets with stretch wrap and corner protection.

### 7. Notes

Values are typical and may vary within production tolerances.

All information is based on manufacturer data.
