

- **Product identity**

Disinfectant wipes for hands, objects, food surfaces.
Wipes impregnated with hydroalcoholic solution.

- **Secteurs d'activité**

Hospital, medical, catering, hotel and leisure environment, workplace and education. The formula containing more than 70% alcohol is ideal for hospital staff. Professional use, general public.

- **Benefits**

Ideal for disinfecting hands, objects and surfaces. Bactericidal, yeasticidal and virucidal action. Effective and without rinsing. For surfaces that can receive food, rinse after use. Without perfume or dye.

- **Manual**

TP1 HANDS Rub the hands with the wipe, distribute well and rub for 30 s to 60 s depending on the desired effect. Do not rinse. Repeat the operation several times a day.

TP2 SURFACES

TP4 FOOD SURFACES Scrub clean surfaces. Let dry. Do not rinse.

- **Precautions for use**

Sensitive materials (covering paints, varnishes, certain plastics, etc.) : test on a small, invisible area before using the wipes. Do not leave more than 10 minutes on surfaces.

DANGER

Highly flammable liquid and vapor. Causes serious eye irritation. Keep out of the reach of children. If you consult a doctor, keep the container or the label available. Wear protective equipment eyes. IF IN EYES : Rinse cautiously with water for several minutes. Remove contact lenses if the victim does and if they can be easily removed. Continue to rinse. If eye irritation persists : get medical attention. Keep away from the heat, hot surfaces, sparks, open flames and any other source of ignition. No smoking. Avoid release into the environment. Dispose of the contents and its container in the appropriate collectors in accordance with local regulations in force. Do not reuse packaging. Do not throw the residue into sewers and waterways.

- **Storage conditions**

Store in the original packaging away from frost and excessive heat.

- **Expiration dates**

36 months after manufacture.

- **PAO**

Not applicable.
